## THE LIQUOR LAW TIGHTENS

FROM reports of the activities of the prohibition officers in western Nevada there is every indication that the liquor laws are being tightened until it will be almost impossible to buy a drink.

At Virginia City last night the raids made by Capt. Donnelly and his men were evidently thorough, for nine arrests were made. The arrests have been coming so fast in Washoe county that it is said to be almost impossible to secure liquor there now, and at various other points there is increased activity by the officers.

This tightening will have the effect of forcing more open expressions of the public opinion on the liquor laws of the state and federal government as they now stand and a satisfactory prohibition law may be the result.

There has long been the cry: "Enforce the prohibition law or repeal it." If the rigid enforcement makes prohibition as unpopular as its enemies claim, it will not be long before the law is modified. There will never be a repeal of the act, but there may be modification if the public insists upon it.

## THE COMSTOCK BOOM

THE Comstock is all right and she needs no sympathy. Blows more crushing than that of Wednesday when the order came to suspend development work in the Middle Mines have been heaped upon the great bonanza camp, but she has shaken them off and has enjoyed subsequent periods of prosperity in the cycle which mining camps pass through.

The announcement that a Philadelphia group will not go through at present with the plans for a big mining scheme similar to that in effect at Gold Hill does not eliminate other capitalists from taking up the scheme. Superintendent Alex Wise has announced that he will continue development work and this means that an attempt will be made to interest other mining men in the venture.

The Comstock has not played its last card by any means. There is still the Six-Mile Canyon to be considered, and there is not a miner familiar with the district who will not tell that some of the richest ore of the camp is still in the canyon east of Virginia City.

Then, too, there is the big Cedar Hill yet to be run through a mill when a big operating company takes hold of it. William O'Leary, the late "Mickey" Coleman, Wheeler Nye and a score of others have scratched the surface of the hill for years and they know that gold and silver are there.

The Comstock may be depressed temporarily, but her resources in a mining way have only been taken in a portion, and the camp's life is good for years to come.

## NEVADA AND THE KU KLUX

WARNING that California intends to drive the Ku Klux Klan from that state has been sounded.

In the case of another evil, the traffic in narcotics, California warned that the dope vendors would be driven from the state. They were, and Nevada is finding herself unprepared with a suitable organization to devote sufficient time to their care or expulsion from this state.

With the evil of the Ku Klux Klan, the case should be different. Nevada should advise immediately that she will not tolerate the activities of this government within a government and the Klan's reception here should be cold.

## THE PUBLIC SHOULD BE TOLD

TO THOSE who wonder why it is the public never has been informed of the amount paid mine owners and charged to production cost, it may be of interest to know that an injunction, granted two years ago by the supreme court of the District of Columbia, at the instance of the Maynard Coal Company, restrains the federal trade commission from making an investigation that would be a disclosure on that point. Why the decision has not been reviewed is not announced. It is possible that the operators, who are now generally blamed for the trouble, will tire of being the "goat" and divulge the real profiteers—the mine owners—who neither make, mine, nor market coal, yet absorb the greater part of the profit of all three operations.—[Dearborn Independent.]

THE VISIT of Jack Dempsey to Europe has stirred up his country to condemnation for his failure to make the trip with some "buddies" a few years back. He has an opportunity to win the good graces of America, however, as an exchange suggests, by looking up Grover Cleveland Bergdoll and engaging him in a finish fight.

## EDITORIAL

It is customary for poor students to credit the failing mark they usually receive to some member of the faculty. When this occurs the student little realizes that it is he that is the failure and not the teacher. The teacher assumes certain responsibilities that a pupil usually fails to understand. Sometimes the red mark may be just the result of absence at a certain period due to sickness, but this has a material effect upon the student, causing him to lose interest in that particular work and then to abuse the teacher with rude remarks about him or her which pass about on the outside and finally establish the idea that the teacher is unfit. This is a very grave offense against one's character and a remedy should be procured immediately. The advice that will be given here is to criticize the mark and the failure instead of the teacher, and endeavor to make the mark more respectable and show interest in one's work.

## NEWS

## Entertainment

The entertainment today was greatly enjoyed by the pupils and was one of the best put on by the entertainment committee during the year. Elizabeth Benedict rendered a violin solo; Glen Kelly wrestled with Verrill Fell; and Walter Voorhees wrestled with Teddy Sally. George Meyers rendered a clarinet solo and Prof. Hoffman also played a slide trombone solo.

## Civics

The senior civics class is now studying state government and in connection with the subject has asked several of the state officers to talk to the class. Monday morning, Mr. Ingram addressed the civics class and told them something about his duties as a member of the state industrial commission. He also explained details of the Nevada workmen's compensation act.

Tuesday, Col. Scrugham told the class of his duties as state engineer, of the conditions in Nevada, and impressed upon them the opportunities and resources of Nevada.

On Wednesday Superintendent W. J. Hunting spoke on the public school system of Nevada and also his duties.

Thursday, Attorney-General Fowler spoke to the class about his department in the state government and this morning Mr. Booe of the highway department spoke to the class about that department.

These talks make civics seem more real and practicable to the class and have been greatly enjoyed.

## Manual Training Class Make Hurdles

During the last two weeks the manual training classes with the help of Prof. Jones have completed about twenty hurdles which will be ready for use for the track meet at Carson City on May 6, 1922. The hurdles are painted white and are adjusted so as to make two heights.

## The Western Nevada Meet

On May 12 a track meet will be held in Reno in which all western Nevada high schools will be eligible. Carson stands a good chance, as the boys are practically sure of the hurdles, high jump, shot-put, discus and javelin throw, with a heavy sprinkling of seconds and thirds in the other events. Let's go! Carson!

## New Track Suits

Twelve new track suits have arrived and are on exhibition in Gray, Reid, Wright's window. The sweater is white with a blue stripe from the right shoulder to the left side of the sweater. In the middle of the sweater is a red "C" with two red wings, one projecting from each side. The pants are white with a blue stripe running down the leg and on the bottom. The suits will be worn by the participants of Carson high school in the track meet here tomorrow.

## Penmanship

Now that more of the students have their hundred drills O. K'd, the class is working on their hundred and twenty-five drills for the diplomas Miss Hayden has promised to the class if twenty-two out of twenty-seven students pass the first time. The class has made very good progress this year and all except a few have finished the one hundred drills.

## Track Meet Tomorrow

Tomorrow the track team from Reno will compete again against Carson to see which team will have the highest number of points. Last Saturday we lost by two points.

Two cups are being given. One for the team that wins the meet. The other for the man who makes the highest number of points. Bronze medals will be given to the person taking first place in any event.

Although Christensen made nineteen in the last meet, he is going to show Abrams that he can make more points than Abrams can.

## Tennis

The new tennis courts are being well patronized now that the warm weather has arrived. Several children get up at six o'clock and play until about seven. After school is out every night a regular procession can be seen going up to the courts. Many fast and exciting sets are being staged and several people are showing their ability as tennis players.

## Big Show at Grand May 8

The biggest show treat of the year will be staged Monday night, May 8, by the students of the dramatics class. The name of the play is "Polly Lou" and is the best dramatized and comical show put on by the students of Carson high school this year. The following is the cast of the play: Shelby Harrington, Edward Patterson, Ralph Trimmer, Edward Malley, Allen Clark, Hugh Lamb, Gertrude Sour, Inez Fothergill, Claire G. Ford, Ina Winters, Bessie James, Lucy Evans, Ione Fothergill, and Edith Smith.

Come early and avoid the rush Monday night, May 8. Curtain at eight o'clock sharp.

## Come On, Let's Go!

Go where? To the carnival, of course. The twenty-sixth of May, the carnival will be held at Armory hall or at the high school building.

Each class, organization, and society will have a concession. The carnival will be just about the same as the one given a year ago. Dolls and candy and the fashion show of 1922 will be seen. The "Days of '49" saloon, where cool, refreshing drinks will be obtained will be running. Come here and drive away your sorrows. A thousand and one laughs. The money obtained will probably be used in buying a player piano or to help buy athletic sweaters.

## JOKES

Ed. D.—"Mother, is that party formal?"

Mother—"Yes, why?"

Ed. D.—"Well, I wanted to know whether to wash a high or low collar."

Royal C.—"Do you know who is the laziest man in the world?"

Kenneth—"Yes, Verrill Fell. He turns his sock wrong side out to hide the hole."

Ed. M.—"Pa, give me a nickel?"

Mr. M.—"Why, son, you're too big to be asking for nickels."

Ed. M.—"You're right, Pa, slip me ten dollars."

## A Kick

There was a young rounder named Lew,

Who rode up a batch of home brew,

He took a wee nip

Just a moderate sip,

Funeral—Tuesday at two.

Ed.—"What's the reason for the long cigarette holder?"

Joe—"Doc said to keep away from cigarettes and this is the farthest I could get."

Ed.—"What's the reason for the long cigarette holder?"

Joe—"Doc said to keep away from cigarettes and this is the farthest I could get."
